

HIGH-CAPACITY WINCHES & HOISTS

Trade Show 2026 Flyer

Ingersoll Rand offers winch and hoist products engineered with a tremendous array of options and special features providing the capability to meet the needs of any application. Ballard Industrial is here to help you identify the equipment best suited to your needs and to provide the maintenance and repair expertise required for a very long service life.

Classic Air Winches

With a reputation for rugged dependability and safety, the Ingersoll Rand **BU7A & EU** Classic Air Winches have been an industry standard for over 60 years. Their durability and compact size make them ideal for utility use in maintenance, construction, offshore and marine applications. Classic Air Winches are available with optional features such as remote control pendants, drum guards, airline accessories and construction cages.

- Rugged cast steel construction delivers long life
- Lift-to-Shift variable speed lever for precise control
- Band brake provides easy-to-use, reliable braking
- Radial piston motor for reliable power
- Variable-speed throttle valve
- Disengaging clutch for rapid wire rope payout

To celebrate our 2026 Trade Show & Open House, we are offering special pricing on the BU7A & EU winches for a limited time only.

Winch & Hoist Sales, Rentals & Services

Call us for any of your high-capacity winch & hoist needs:

- Sales
- Rentals
- Repairs
- Load Testing
- Certification

Sales & Rentals

Available for sale or rent, we have a full range of Ingersoll Rand air, electric and hydraulic options for hoists and winches, including "man riding" personnel lifting winches.

Got an old winch you need to replace? Ask us about a guaranteed **trade-in credit** on the purchase of a comparable Ingersoll Rand winch. Your old winch, running or not, can qualify you for a significant discount. Call us today to find out what your trade-in is worth.

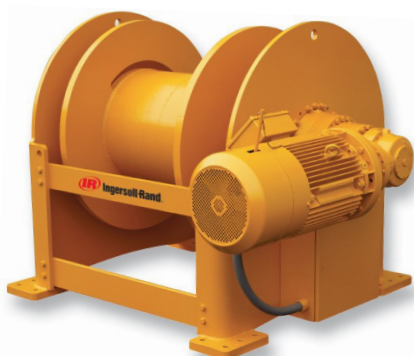

Repairs

Our factory-trained technicians diagnose and estimate each unit prior to repair. Upon completion of service, each repaired item is tested for functionality and safety. All repairs are guaranteed for 90 days. Our repair shop is factory authorized for Ingersoll Rand service as well most major brands of industrial equipment, including high-pressure hydraulic equipment.

Load Testing & Certification

As a factory certified service center, we have complete access to the factory test tower in Kent, WA in addition to our in-house test capabilities. This access gives us the ability to perform a full dynamic load test of air, electric and hydraulic winches to 30,000 lb line pull and hoists to 100 metric ton capacity.

We are also authorized to test and certify a variety of high-pressure hydraulic equipment including cylinders, pumps, hand jacks, gauges, power risers and more.
