The just-right solution for you

No one offers you more than PFERD. Nearly 6,000 products for work on surfaces and material cutting — and the one right solution for the work you need to do. Understanding the application you’re working in and what material you’re dealing with is key to helping you choose what’s best.

As the leader in the development, production and distribution of solutions for work on surfaces and material cutting, PFERD is a work horse for your unique working needs.

We started more than 200 years ago as a family-owned company and we put that history to use with an international and long-term focus. You can rely on our longevity, expertise and solution-focused mindset to answer your business needs and help you solve your business problems.
